Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

The finality of the last office action has been withdrawn and a new office action is presented.

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 22,26-29,33-38,42-47,51-52 are rejected under 35 U.S.C. 103(a) as being unpatentable over Dougherty (5539624) in view Friend et al (5247190) or Klein (6085698) or Cozad (4644895) .

It would have been obvious to one having ordinary skill in the art at the time the invention was made to provide the hose of Dougherty with electro luminescent means which is well known means for illumination of devices as shown by Friend et al (5247190) or Klein (6085698) or Cozad (4644895).

1. Claims 23,30,39,48 are rejected under 35 U.S.C. 103(a) as being unpatentable over Dougherty in view of Friend or Klein or Cozad as applied in paragraph above, and further in view of Vecht et al (4140937).

It would have been obvious to one having ordinary skill in the art at the time the invention was made to make the electro luminescent means of the above combination from a electro luminescent paint means as taught by Vecht et al since it is merely a known way of applying electro luminescent means .

Applicant's remarks have been considered but are not deemed persuasive in view of the newly cited art. electro luminescent means are well known for illuminating objects.
